Niewz

New Views on News.

A vibrant RSS reader with simple, classic feed management and a look you make your own.

Key features

Personalized reading experience
Choose between five reading themes, fifteen accent colors, four font styles and three article layouts.

Flexible feed organization
Organize sources into folders, customize folder icons and colors, and give each feed its own color and icon.

Widgets
Interactive Home Screen widgets for articles and folders, in any color.

Article listening
Listen to articles read aloud. Niewz Unlimited keeps playback going even while the device screen is locked.

Feed discovery
Import OPML files, sync with FreshRSS, Miniflux or NewsBlur, and paste almost any website address Niewz finds the feed, including YouTube, Reddit, Medium, Mastodon and GitHub.

Custom feeds
With Niewz Unlimited, turn supported websites without a standard RSS feed into readable feeds.
